Reviewer’s report:

Authors addressed all the comments in an appropriate way and the manuscript has been improved in terms of clarity.

I would suggest to consistently report all the additional references suggested in the previous comment also in the text/refs [1, 2]. And, possibly expand them with specific examples that you can get from the experiences of the TRANSFoRm EU FP7 project [3] or the PCORnet based PORTAL network [4].

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

**Are the conclusions drawn adequately supported by the data shown?**
If not, please explain in your comments to the authors.

Yes

**Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?**
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
