The authors have done a thorough and fully revision according to the editor and reviewers' comments. To sum up, I appreciate the changes made, and in my opinion, the quality of the manuscript has improved significantly. I would say conditional acceptance if the authors could finish my following suggestions:

Since the three websites were selected for analysis, I suggest that the authors should make more descriptions on these three websites.

With regard to the identification and evaluation of health information, the authors' response is still not convincing to me. More explanation is still needed in the part of Method.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
