Please overwrite this text when adding your comments to the authors.

The article is well written, it main contribution is the data studies provided for mental health care, it is provide good review on mental health studies, based on provided data. I suggest to accept the article after minor change. I think the structure of the paper should be redone for better comprehension instrumenting the main contribution. simple comparison with othe data set for mental health care can be also highlighted to demonstrate the value of the data used in the study of this article.

Proofreading is required for to enhance the readability, 

In total i suggest minor change revision.
