Reviewer's report

Title: The significance of information after discharge for colorectal cancer surgery - a qualitative study

Version: 4 Date: 8 December 2014

Reviewer: Di Giulio Paola

Reviewer's report:

Major compulsory revisions
the structure of the article is still sporportionate: 14 pages of results, 9 introduction and methods and 5 of discussion
the mean theme on information is somehow repetitive
results on information (pag 18) apparently refer to the diagnosis nad not to general information: please clarify
Most of the results refer to general problems common to mopst cancer patients: please highligth the original results of the study

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
