Reviewer's report:

My comments are following:

About the title: The title is not in line with whatever the authors has written in Llnes 109-110 (Assess the Practice and Attitude of nursing on wearing nurse uniform. At least What? The title or this title with Attitude?

1- Nurse uniform or Nursing Uniform? Which?

2- The aim: Practice of nurses on wearing nurse uniform and associated factors". It is not consisted in line with the TITLE>

Please correct.

3- In Line 120: After Namely: or included.

4- In lines 127-128: It is advised to write the formula and the methods for calculating the sample size,

5- In lines 132-134: Again mentioned attitude on uniform and ....

6- In materials and methods: must explain about the Validity and reliability of Data gathering tools.

It is needed to state further about the domain of questionnaire.

7- If it is approved by Committee of Codes < Please write the code (Number).

8- In Line 155, Findings: It is better to have 1-2 tables about hospitals, Domain of questionnaire, .......

9- In lines: 167 - 170 - 173 - 176 - 215: Please write the Percents, No needs for numbers.

10: In Line 222: SEX in first of the paragraph, What the mean?

11- The authors discussed about attitudes but No Mentioned in Title or aim. Explain why?

12- Discussion and conclusion sections have written very weak. Further Ref. and analysis are needed.

13- The Ref. are too less for an article which will publish in BMC. It is better to use more Ref. for paper improvement.
