Reviewer's report

**Title:** Registered Nurse to Bachelor of Science in Nursing: Nesting fast track to traditional generic program, teachings of nursing education in Burkina Faso

**Version:** 3  
**Date:** 20 March 2014

**Reviewer:** Hsiu-Min Tsai

**Reviewer's report:**

Suggestions to the author,

Thank you for giving me the great opportunity to read this interesting manuscript. This manuscript would be as a useful reference for researchers and educators who may study fast track program of nursing in other’s countries.

1. I suggest the background section to be revised concisely and have to be linked with the purposes/objectives of this study.

2. In method section, it is suggested the author need to provide more information regarding items of questionnaire and how the items were rated and analyzed.

3. The manuscript has several grammatical errors and format issues. Please review and revise them.

4. The contents in the discussion and implication are too broad and need to be revised extensively. It is suggested that the author might provide specific recommendations on research, education, and practice respectively. It is better for readers.

**Level of interest:** An article of importance in its field

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests.
