Reviewer’s report:

Dear authors,

I really enjoyed your manuscript, which deals with an interesting topic. I have some minor comments

1. It is rather unusual to include the p values in they have you do this in your manuscript (e.g. abstract) for example p=0.005<005. I suggest to only include one value e.g p<0.05

2. Please include the statistical package you used in this study.

3. Histograms entered directly from the SPSS are not attractive (see figures 1 and 2). I suggest to use another program to create such graphs

4. Figure 2 is rather difficult to follow and I believe it does not provide any interesting information. I suggest to delete it

5. Please include any internal consistency test (e.g. cronbach's alpha) for this study in order to allow the reader to assess this issue

6 I suggest to make separate heading for limitation and conclusions

All the best
