Reviewer’s report

Title: Support pressure distribution for positioning in neutral versus conventional positioning in the prevention of decubitus ulcers: A pilot study in healthy participants

Version: 0 Date: 22 Jul 2017

Reviewer: Maureen Benbow

Reviewer's report:

An interesting study that challenges conventional thinking. The limitations are clearly explained and the need for a clinical study highlighted.

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
