Reviewer’s report

Title: Awareness of professional rules among Iranian nurses: a cross-sectional study

Version: 1 Date: 13 Mar 2018

Reviewer: Theodore Cosco

Reviewer's report:

The response to the reviewers' comments does not provide any detail as to how the issues raised were addressed, so it is difficult to know which of the highlighted areas respond to which comment. In future I would suggest an itemized list of comments and responses to guide the reviewers in their assessment of how well these issues have been addressed.

Many of the issues surrounding the questionnaire and the methods have been sufficiently addressed.

However the language still needs significant proof-reading to be in a publishable state.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
