Reviewer’s report

Title: Randomized community trial on nosocomial infection control educational module for nurses in public hospitals in Yemen: a study protocol

Version: 1  Date: 28 Sep 2018

Reviewer: Kyung-Mi Kim

Reviewer's report:

This manuscript does not have the basic form of the academic manuscript. There is no result part in the abstract and the body part of the manuscript.

The results of the outcome measure for knowledge and practice are not described at all, compared to the considerably lengthy method part described in the manuscript. Furthermore, the discussion is extremely short and poor.

The authors described that the purpose of the study is to develop, implement, and evaluate the effectiveness of new educational module regarding nosocomial infection control measures. However, I don't know the results of the effectiveness of new educational module in the manuscript. The significance of this study is not understandable. Nosocomial infection should be corrected to healthcare associated infections.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

- Needs some language corrections before being published

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
