Reviewer’s report

Title: Patient satisfaction with nursing care in Ethiopia: A systematic review and meta-analysis

Version: 0 Date: 19 Feb 2019

Reviewer: Elisa Ambrosi

Reviewer's report:

The manuscript is focused on a very interesting and relevant topic. Nevertheless, there are some issues need to be addressed:

- In the methods section it would be useful to add a conceptual and an operational definition of patient's satisfaction and to describe better all the factors that have been used as independent variables in the statistical analysis.

- In the results section it would be important to add some more information about included studies, e.g. characteristics of the sample, a brief description of the instruments used to measure satisfaction…

- In the discussion it would be interesting to add possibly explanations for the differences in findings across studies and of implications for practice and/or future research.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
