Title: Registered Nurses Experiences of Managing Depressive Symptoms at Care Centres for Older People: A Qualitative Descriptive Study

Version: 1 Date: 07 Aug 2019

Reviewer: Michal L. Boyd

Reviewer's report:

Thank you for the thoroughness of the article revisions. The revisions have greatly enhanced the clarity of the paper's message and improved readability. This is an important study that highlights the realities of depression in older people and the challenges faced by the nurses that care for them. It has the potential to support further innovations in older adult dementia care practices and future research.

There are two small typos that I noted. 1) page 18, line 11, "Ns" should be "RNs", 2) page 19, line 47, there needs to be a full stop at the end of the first sentence in the paragraph after '...competence.

Nevertheless....'
