This paper discuss the impact on students after education reform.
The study ie well designed
The discuss has clearly list the limitation and the reasons behind that.
Ex: figure 1 why there is lesser 4th year and 1st year students was added
Table 1 why there has lower cronbach' alpha in students social self perception

There are some points that I suggest revision
1. Actually what's the education reform?
   It may be listed in supplement or briefly described in material/ method part
2. Why did not choose the same students for serial questionnaires?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
