Reviewer’s report

**Title:** Factors Affecting Medication Adherence: Patient Perspectives from Five Veterans Affairs Facilities

**Version:** 2  **Date:** 17 May 2014

**Reviewer:** charu grover

**Reviewer’s report:**

It is a well written paper but needs a few minor changes.

Few suggestions for your consideration.

1. It would be good to have conclusion and discussion sections.

2. Methods section can be represented by a diagram. Clarify the coding and good to add few important questions as a table in the methods section.

3. Quotation marks are missing where text has been taken from the patient interview.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

'I declare that I have no competing interests.'
