Reviewer’s report

Title: Inpatient mortality of HIV-infected adults in sub-Saharan Africa and possible interventions: a mixed methods review

Version: 2 Date: 1 October 2014

Reviewer: France Lert

Reviewer’s report:

The paper was fully improved and is now well organized and meaningful. The structure of the paper is good with a presentation of the area and of health care provision, the identification of failure in the care cascade and the contribution of littérature to support the understanding of the mechanisms and potential responses.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
