Reviewer’s report

Title: Uterotonic use immediately following birth: Using a novel methodology to estimate population coverage in four countries

Version: 2 Date: 27 October 2014

Reviewer: Mercedes Colomar

Reviewer’s report:

Minor essential revisions:

1. please provide the sources where the methods for UUIFB estimation were taken

2. Line 347, I think the first sentence belongs to the previous paragraph.

3. Eventhough you have descibed and stated the number of experts participating in each panel, It would be important to provide the number of participants by position for each country.

IE: Figure 2. Number and description of experts participating in each country panel

An example for the figure I recommend will be uploaded

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
