Reviewer’s report

Title: Effectiveness of a transitional home care program in reducing acute hospital utilization: A quasi-experimental study

Version: 3 Date: 7 January 2015

Reviewer: Chryssoula Lemonidou

Reviewer’s report:

Minor Essential Revisions: Authors have made a good work. However, some more Minor revisions are needed as follows:

Results: Line 244, Table 2 has to be corrected as Table 1
Line 254, there is still a number after a period and it must be changed to words
Line 256, Table 1 has to be corrected as Table 2

Line 281, Discussion instead of Interpretation (according to the Journal’s suggestion)

After these minor revisions, my suggestion is that the manuscript can be considered for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No to all of the above
'I declare that I have no competing interests'
