Title: Integrating an infectious disease programme into the primary health care service: A retrospective analysis of Chagas disease community-based surveillance in Honduras

Version: 5 Date: 21 November 2014

Reviewer: Steffen Flessa

Reviewer's report:

The paper has strongly improved. I think the costing section would still need a higher degree of professionalism but this is the case with many papers.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
