Reviewer’s report

Title: Understanding the modifiable health systems barriers to hypertension management in Malaysia: a multi-method health systems appraisal approach

Version: 4 Date: 4 February 2015

Reviewer: Christopher McKeivitt

Reviewer’s report:

The authors have carefully considered reviewers’ comments and taken these on board where appropriate.

Using appendices enhances the paper’s readability.

I found a missing word in one of the new sections: page 14, line 611

"...which, so far, has provided evidence mainly high income countries."

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
