Reviewer’s report

Title: African vaccination week as a vehicle for integrated health service delivery

Version: 5  Date: 22 May 2015

Reviewer: Mary Patricia Nowalk

Reviewer’s report:

This manuscript is much improved and responsive to the reviewers' comments.

MAJOR
Page 4 para 2 is the number of countries correct?
Figure 1 are the bars labelled correctly? they seem to be opposite what is written in the text.

Minor
There are still some language and typographical errors that should be corrected.
Tables should have a list of abbreviations so that they can stand alone.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have received grant research funding from several vaccine manufacturers - Merck, Pfizer and MedImmune.
