Reviewer's report

Title: How Personal and Standardized Coordination Impact Implementation of Integrated Care

Version: 4  Date: 27 April 2015

Reviewer: Heather Huang

Reviewer's report:

This study on coordination between primary care and mental health providers within a collaborative model is very informative. It addresses hurdles to implementation as they pertain to organizational factors. The revisions the authors have made help more clearly articulate the purpose and the findings of the study.

Major Compulsory revision - None

Minor essential revisions - None

Discretionary revisions - None

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
