Reviewer’s report

Title: Cost benefit of investment on quality in pharmaceutical manufacturing: WHO GMP pre- and post certification of a Nigerian pharmaceutical manufacturer

Version: 0 Date: 22 Aug 2017

Reviewer: YINKA ADOJUTELEAGAN

Reviewer's report:

How is the conclusion of the cost benefit been 5 times more when the company does not invest in quality arrived at? Quality may be termed relative, some other companies may not carry out as much quality processes but have done enough to qualify for local approvals. I suggest that a comparative analysis with a company investing in lesser quality practices and investment is done to conclude on the relative benefit of quality investments.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
