South African Primary Health Care Allied Health Clinical Practice Guidelines: the big picture

Dear authors

Thank you very much for your extensive reply to the peer review of your very interesting paper. I have a considerable interest in allied health professionals though an interprofessional pre-registration education I lead and believe your paper contributes to a wider understanding of the work of allied health professionals (and the challenges they face working in an interprofessional environment).

Thank you also for the additional text added to the paper which enhances its understandability for an international audience.

Best wishes for your ongoing research
