Title: Patients' perceptions of interactions with hospital staff are associated with hospital readmissions: A national survey of 4535 hospitals

Version: 0 Date: 01 Jun 2017

Reviewer: Suzanne Fredericks

Reviewers report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

Very good topic. Overall, the paper is well written; however a few minor edits are required:

1) The psychometric properties of the Hospital Consumer Assessment of Healthcare Providers and Systems scale is needed. Why was this instrument selected? Has it been used previously to assess perception? Please explain

2) Why examine perception? The rationale for the selection of this concept has not been clearly presented

3) How is perception conceptualized

4) What are the implications for practice based on the study findings - please explain

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
