Title: Change in practice: a qualitative exploration of midwives' and doctors' views about the introduction of STan monitoring in an Australian hospital.

Version: 0 Date: 08 Feb 2017

Reviewer: Yves Jacquemyn

Reviewer’s report:

This study describes resistance to the introduction of new technology in obstetrics, it mainly corroborates research on resistance to change and change management and confirms that when introducing new technology not only solid proof of its scientific value needs to be addressed but also thoughtful guidance when introducing it in daily (busy) practice.
