Reviewer’s report

Title: Canonical correlations between individual self-efficacy/organizational bottom-up approach and perceived barriers to reporting medication errors: A multicenter study

Version: 1 Date: 17 Apr 2019

Reviewer: Dominika Vrbnjak

Reviewer's report:

The reviewer's comments concerning recommendations appear to be addressed. However, there are still some typing errors, copy editing is needed. Also, authors should support their statements with reference on page 11 where stating: "internal consistency as over 0.6 is acceptable in this study because a tentative social science instrument was included". Appropriate statistical references could be included where evaluation of construct validity is described. Detailed description of this process should be given and supported by references (EFA? Using which rotation? Kaiser-Meyer-Olkin (KMO) test? Reference for cut-offs).

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published
Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

'I declare that I have no competing interests'
