Title: Factors associated with access to health services and quality of life in knee osteoarthritis patients: a multilevel cross-sectional study

Version: 2 Date: 27 Apr 2019

Reviewer: Gary Hooper

Reviewer's report:

The authors have satisfactorily addressed my questions except the question about randomisation. It is not good enough to say they were randomly selected, what method was used?

There are multiple grammatical errors that need to be addressed prior to publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
