Reviewer’s report

Title: Lessons from a Training Needs Assessment to strengthen the capacity of Routine Immunization Service Providers in Nigeria

Version: 2 Date: 29 May 2019

Reviewer: Svea Closser

Reviewer's report:

This manuscript is much improved, and the revised discussion makes clear what the programmatic implications of this paper are. The content of this paper is now of publishable quality, and it will add important information to our understandings of the delivery of immunizations in Nigeria.

The remaining issues are ones of writing--the discussion is well written and edited but in much of the rest of the paper there are still significant issues--missing punctuation, subject-verb agreement problems, etc. If the paper will be extensively copyedited by the journal, this could take care of these issues. Otherwise the author(s) responsible for the discussion section could carefully work over the rest of the paper.

I look forward to seeing this paper in print.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
