Title: Association Between Clinic Physician Workforce and Avoidable Readmission: A Retrospective Database Research

Version: 0 Date: 08 Nov 2019

Reviewer: Yu Heng Kwan

Reviewer's report:

This paper attempted to examine the relationship between clinic physician workforce and unplanned admission for ASCs. There are some concerns to be addressed:

1. why do you include &gt;65 as age cut off?
2. How do they account for staff changes across the year?
3. How do they account for seniority of staff and experience of staff?
4. We need the p values for overall model before the sub quintiles for each table/

All the above need to be addressed before we can move further with the review. Thanks for the opportunity to review.
