Dear Editors of BMC Health Service Research Journal

This was an estimation of marginal effect of dental care insurance on health outcomes. The title of the study was "Providing dental insurance can positively impact oral health outcomes in Ontario." The study can contribute to the body of knowledge with regards to financial risk protection and universal health coverage. The following strengths are identified:

* Address very important public health issues
* Follow scientific literature writing guides and
* Uses appropriate methods and statistical analysis
* Well written which uses advanced level of English language writing
* Results are presented properly
* Conclusions are in line with the results

Thank you.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes
Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
