Reviewer's report

**Title:** Factors Associated with Adherence to Antiretroviral Therapy (ART) among adult people living with HIV and attending their clinical care, Eastern Ethiopia

**Version:** 5  **Date:** 31 August 2015

**Reviewer:** Pythia Nieuwkerk

**Reviewer's report:**

The authors have adequately addressed my previous concerns. I have no further comments only that the spelling of "Neverapin" (page 7) is still incorrect. It should be "nevirapine".

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
