Reviewer's report:

Please see a few remaining comments in the attached file. Just to highlight a subset of them:

--Line 291: There is a missing word or something else screwy about the syntax here -- not sure what's meant (see attachment).

--I guess you can speculate about the results in any way you see fit, but I find the speculation that sex workers get better care when their sex worker status is known to health workers (your lines 280 ff.) to be contradictory to the way the rest of the paper talks about discrimination based on sex worker status.

But I don't want to hold this up, and I appreciate that it is a solid paper.
