Reviewer’s report

Title: Leishmaniasis patients' pilgrimage to access health care in rural Bolivia: a qualitative study using human rights to health approach

Version: 0 Date: 01 Jul 2018

Reviewer: Mai Tuyet Pho

Reviewer’s report:

1) Replace quality of life in abstract, results

2) On page 4, lines 86-88, "implied" and "affectation" should be replaced. Consider "resulted in" and "impact" but defer to editor

3) Table 1. Replace "Type of Problem" with "Form of disease" or "Form of Leishmaniasis"

4) On page 6, line 129, replace "well-known experience" with "reputation"

5) On page 6, line 134 sentence "The access to these communities..." is redundant with itself

6) On page 9, lines 197-198, the sentence "The majority of..." is grammatically incorrect. Do you mean, "recounted visiting"?

7) On page 13, line 300, replace "the had to go through many difficulties" with "they faced many hardships"

8) On page 13, line 302, replace "implied", this does not seem to be an accurate use of the word

9) On page 15, line 350-354, the line "In remote areas..." is somewhat redundant and poorly written

10) On page 18, line 412, replace "author was" with "author became"

11) On page 19, line 453, replace "reinforce" with "strengthen"

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes
Are the conclusions drawn adequately supported by the data shown? 
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? 
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
