Reviewer's report

Title: Haemoglobin level at birth is associated with short term outcomes and mortality in preterm infants

Version: 2 Date: 24 November 2014

Reviewer: Therese Dowswell

Reviewer's report:

Thanks to the authors for making revisions to the manuscript. My only serious concern related to the mistakes in table 3. These have now been corrected. My other comments were minor and the authors have justified their approach.

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
