Reviewer’s report

Title: Tobacco smoking and all-cause mortality in a large Australian cohort study: findings from a mature epidemic with current low smoking prevalence

Version: 2  Date: 16 January 2015

Reviewer: Prabhat Jha

Reviewer’s report:

I have read the revision and the reply to reviewers. The authors have met all the concerns particularly about reverse causality and relevance to the whole of Australia. I think it’s a stronger manuscript.

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
