Reviewer's report

Title: Early Goal-Directed Therapy in the Management of Severe Sepsis or Septic Shock in Adults: A Meta-analysis of Randomized Control Trails

Version: 2 Date: 26 January 2015

Reviewer: Andrew Rhodes

Reviewer's report:

The authors have addressed my concerns. The only residual question remaining for me is the omission of the Jansen lactate clearance paper that I suspect should be included.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have given lectures for Edwards, LiDCo and Masimo.
