Reviewer's report

Title: Mathematical Assessment of the Role of Traditional Beliefs System and Customs and Health-care Settings on the Transmission Dynamics of the 2014 Ebola Outbreaks

Version: 2 Date: 4 March 2015

Reviewer: Sally Blower

Reviewer's report:

This is an excellent paper, the authors have addressed all of my concerns.

I would recommend that the authors carefully proof their ms to correct a few remaining typos & grammatical errors. For example, in places the ms states "of of of" rather than "of". In one of the figure legends a comma is misplaced. A few times plural is used rather than singular.

I have one minor essential revision:

I would like the authors to add a sentence or two that addresses whether it is feasible to expect healthcare workers to work 24 hour shifts.

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
