Reviewer's report

Title: Prescriber and patient-oriented behavioural interventions to improve use of malaria rapid diagnostic tests in Tanzania: facility-based cluster randomised trial

Version: 3 Date: 31 March 2015

Reviewer: George Zhang

Reviewer's report:

The authors have clarified and addressed my questions.

e.g. point # 2.

"The numbers are not simply the sum of the numbers in the different outcome evaluation periods because we did not include in the evaluation periods the patients presenting during the intervention implementation activities."

I have no additional comments

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
