Reviewer's report

Title: Maternal and child health nurse screening and care for mothers experiencing domestic violence (MOVE): a cluster randomised trial.

Version: 2  Date: 16 January 2015

Reviewer: Linda F Bullock

Reviewer's report:

Major Compulsory Revisions:
1. Better description of where the CAS questions were utilized. If in the mail survey, a comparison to the prevalence rates found during the 4 weeks and 4 months post-patum periods would help establish the validity of the mail survey since the return rate was half of what the power analysis indicated was needed.
3. Description of limitations in the discussion section

Minor Revisions:
1. Incomplete sentence under participants.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
