Reviewer’s report

Title: A combination SMS and transportation reimbursement intervention to improve HIV care following abnormal CD4 test results in rural Uganda: an observational cohort study

Version: 2 Date: 2 June 2015

Reviewer: Larry Chang

Reviewer’s report:

I believe the authors have done a good job of responding to my initial comments. I have no further revision requests at this time.

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
