Reviewer's report

Title: Comparison of Serious Adverse Events Posted at ClinicalTrials.gov and Published in Corresponding Journal Articles

Version: 5 Date: 8 July 2015

Reviewer: Andrew Jull

Reviewer's report:

Thank you for the opportunity to review the revised manuscript. The paper is a useful and interesting addition to the methodological literature. The authors have addressed the concerns I raised previously.

Minor essential revision:
The only matter I would raise is that under "Reporting of details of SAEs" the table referred to in paragraph 2 should be Table 2 not Table 3.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
