Reviewer’s report

Title: Biological embedding of childhood adversity: from physiological mechanisms to clinical implications

Version: 1 Date: 19 May 2017

Reviewer: Joan Luby

Reviewer's report:

The author's have been very responsive to the review and have made a number of substantive changes to the manuscript that significantly strengthened it. I feel it will make an excellent and important addition to the literature. I would advise another careful proof of the manuscript as a few missing words were found.

Quality of written English

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no known competing interests.
