Reviewer’s report

Title: A pragmatic lifestyle modification programme reduces the incidence of predictors of cardio-metabolic disease and dysglycaemia in a young healthy urban South Asian population. A randomised controlled trial

Version: 1 Date: 29 Jun 2017

Reviewer: Melinda Carrington

Reviewer's report:

The main criticism I had with the manuscript was the quality of the data to better explain reasons for the findings. Whilst this remains a limitation, it has been acknowledged in the Discussion. All other minor queries have been adequately addressed.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
