Title: Characterizing measles transmission in India: a dynamic modeling study using verbal autopsy data

Version: 1 Date: 15 Apr 2017

Reviewer: James Wood

Reviewer's report:

I thank the authors for their detailed response to my review comments. While I still am somewhat skeptical of the discriminatory power of the data, I think the authors have addressed all of my queries sufficiently and the manuscript should proceed without further correction. I hope to see a follow-up article once a longer time series of mortality data becomes available.
