Reviewer’s report

Title: Fluctuations in the Incidence of Type 1 Diabetes in the United States from 2001-2015: A Longitudinal Study

Version: 0 Date: 03 Jul 2017

Reviewer: Graziella Bruno

Reviewer's report:

In this paper the Authors have assessed incidence rates of type 1 diabetes in adults in a insurance-covered population from the United States.

International data on this issue are lacking and the Authors have well described methods and algorithms employed to estimate rates using administrative data only. The paper is interesting and data well described and discussed.

Minor comment:

The authors should provide estimate of completeness of ascertainment nibased upon capture-recapture method, which is the reference method in diabetes epidemiology.

I suggest to cite a recently published review on this issue (Acta Diabetol. 2016 Jun;53(3):339-47)

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
