Reviewer’s report

Title: Fluctuations in the Incidence of Type 1 Diabetes in the United States from 2001-2015: A Longitudinal Study

Version: 1 Date: 02 Oct 2017

Reviewer: Chung-Yi Li

Reviewer's report:

I tend to agree with the authors' explanations for not using covariate adjusted age-specific incidence rate in both Table 1 and Figures 1-5. However, I would suggest to summarize these explanations at somewhere in either Method or Discussion section; simply for justification.

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
