Title: Mapping the evidence on pharmacological interventions for non-affective psychosis in humanitarian non-specialized settings: a UNHCR clinical guidance

Version: 3 Date: 10 Sep 2017

Reviewer: Takefumi Suzuki

Reviewer's report:

The authors have adequately addressed the concerns raised by the referees. It might be useful to note the fact that chlorpromazine, clozapine (in a complementary row) and haloperidol (as well as fluphenazine) are listed in the 19th edition of the WHO essential medicines but olanzapine is not (http://www.who.int/medicines/publications/essentialmedicines/EML_2015_FINAL_amended_-NOV2015.pdf?ua=1). The reviewer does not have any further comments.

Are the methods appropriate and well described?
