Title: Near-death experiences, attacks by family members and absence of health care in their home countries affect the quality of life of refugee women in Germany - a multi-region cross-sectional gender-sensitive study

Version: 1 Date: 21 Nov 2017

Reviewer: Sverre Varvin

Reviewer’s report:

This is the second review.

The authors have revised the manuscript satisfactorily and I judge it is now ready for publication. There are some misspellings that I suppose the publisher will deal with.

One sentence on page 5 was unclear for me:

Based on the national and statistics about asylum procedures in the year 2015, we recruited a total of 663 women, 257 from the city of Berlin, 98 from Hesse, 105 from Mecklenburg-Western Pomerania, 87 from Rhineland-Palatinate and 116 from Bavaria”.

".the national and statistics.." is what?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I recommend additional statistical review
