Title: Large-scale external validation and comparison of prognostic models: An application to chronic obstructive pulmonary disease

Version: 1 Date: 19 Jan 2018

Reviewer: Orestis Efthimiou

Reviewer’s report:

The authors have adequately addressed all my comments in this revision. I don't have any additional comments to make, just a couple of typos that I happened to spot:

1. Line 252, it writes "In this stage II", probably better as "In stage II"

2. Line 414, it writes "arguable", the correct is "arguably", I think

3. Line 425 it writes "…can be applied to prognostic scores in any the medical field…", please remove "the"

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
