Title: Building the Case for Actionable Ethics in Digital Health Research Supported by Artificial Intelligence

Version: 1 Date: 29 May 2019

Reviewer: Karsten Weber

Reviewer's report:

Many thanks to the authors for the revisions. From my point of view the text can now be published. As an advice for future work, however, I would like to point out that it might be reasonable not to use the Belmont Report as the crucial source for ethical principles. This report was published in 1979 but the issue has evolved ever since. Tom Beauchamp has contributed to the Belmont Report and has revised his own thoughts on Principlism several times over the last 40 years. Therefore, if one considers principles and Principlism, the most recent version of Beauchamp and Childress' book would be a good reference.
